SUMMARY

Final-year Computer Engineering student and Product Designer with three internships across enterprise (Deloitte) and consumer (FashionTV) products. Sole designer on Deloitte's VW Automation team, designing for global automotive brands. Recently shipped F Real Estate by FashionTV, a live B2B brand-licensing platform, leading the component system and developer handoff. Comfortable across the full stack: Figma to React.

EXPERIENCE

Product Designer Intern, Deloitte India

September 2025 - Present | Mumbai, India | On-site

- Drove a 95% reduction in document processing time (20 minutes to under 60 seconds), 35% drop in error rates, and 50% cut in operator training time, via a "Critical Fields First" layout and AI-driven auto-flagging.
- Sole Product Designer on a cross-functional team of 5 (Full-Stack Engineers, ML Engineer, Solutions Architect), driving end-to-end design for enterprise automation.
- Designed 10+ production-ready screens and workflows for the VW Automation Project, translating complex business requirements into operator-friendly interfaces.
- Contributed to enterprise solutions deployed across 5 global automotive brands - Volkswagen, Skoda, Audi, Porsche, and Mercedes-Benz - plus internal tooling for Bajaj and Shree Cement.
- Conducted usability sessions with internal operators across multiple modules, surfacing friction points that shaped the audit flows.
- Built lightweight Python components during implementation to keep design intent intact through to production.

UI/UX Designer Intern, FashionTV India

June 2025 - September 2025 | Mumbai, India | On-site

- Designed the component library and led developer handoff for F Real Estate by FTV, a B2B brand-licensing platform now live at frealestatebyftv.in, serving 5 developer-client brands (Merlin Group, Terra Casa, Danube, SBP, Glenworld).
- Shipped 9 page templates from a reusable Figma component system; owned 4 templates end-to-end (Press, Project Detail, Statistics, B2B Contact). Senior designer reviewed and signed off.
- Front-loaded specs, breakpoints, and edge-case documentation, keeping most templates to a single review cycle through to production.
- Contributed UI to the FTV+ subscription flow and homepage revamp under brand-led direction.

UI/UX Designer Intern, Ocufox Technologies

September 2024 - January 2025 | Mumbai, India | On-site

- Led end-to-end redesign of two brand websites - Ocufox and parent company Green-2-Green - modernizing visual identity across both.
- Built a Figma component library and auto-layout system; authored the team's default handoff specs and annotation patterns.

PROJECTS

F Real Estate by FashionTV

Live at frealestatebyftv.in

B2B brand-licensing platform built for FashionTV India. 9 page templates, 5 developer-client brands at launch.

Document Verification System

Deloitte India - Case Study

AI-driven document verification workflow reducing 20-minute manual checks to under 60 seconds.

Groomify

L'Oreal Brandstorm 2025 - Competition Submission

Real-time grooming simulation prototype reframing the brief from "styling app" to "confidence tool." Did not advance past initial round.

SKILLS

Design Tools: Figma, Adobe Creative Suite, Miro, Notion, Auto-Layout, Variants, Prototyping

Methods: Design Systems, Developer Handoff, User Research, Information Architecture, Accessibility (WCAG), Stakeholder Management

Code: React, HTML, CSS, JavaScript, Python, Git

EDUCATION

B.Tech in Computer Engineering, University of Mumbai - GPA 9.42 / 10

2022 - June 2026 (Expected)

LEADERSHIP AND ACTIVITIES

Founder, CodeAI KJSIT (2023 - 2025). Founded the campus AI/coding committee. Designed brand identity and built the committee website.

Performer, Gajashree Dhol Tasha Dhwaj Pathak. Traditional drumming ensemble - performed for audiences of 1,500+.
